Making Mastery Accessible:
Features of a Mastery Learning System - Infographic

reDesign ○

Designer's Tip: *shaded boxes indicate where approximately 75% of time and effort should be focused.*

Sequential Tasks

Learning Outcomes
- Scoring Rubrics
- Rating System
- Learning Outcome Statements

Measurable, Explicit Competencies
- Standard-aligned academic & efficacy competencies
- Student-facing "I can" statements

Advancement Upon Mastery
- Performance Indicators
- Grading Policy/Scale
- Promotion Plan
- Performance-based Grading System
- Report Card/Progress Report
- Portfolio/Exhibition System

### Meaningful, Positive Assessment
- Tiered Assessment Strategy
- Performance Task approach
- Diagnostic Assessment
- Formative and Summative Assessment Development/Adoption
- Benchmarked Student Work

Differentiated, Timely Supports
- Student-centered Instructional Strategy
- Blended Learning Approach
- Recuperative Instructional Strategy

- Scope & Sequence
- Learning Assets Scan
- Courses/modules/units
- Personalized Learning Plans
- Learning Opportunities
- Learning Progressions

Independent Tasks

Personalized Learning
- Flexible Modular Schedule
- Positive Youth Development Plan
- Learning Management System
- Learner Profiles

Asynchronous Learning

- Extended Learning Opportunities (ELOs)
- Diagnostic Assessment Tool
